

City Jet

New modern design

- Low weight
- 135° pivoting high pressure hose reel
- Noise levels halved
- Ergonomic working height

High pressure skid
mounted jetting units

CityJet

The CityJet is the latest compact skid mounted jetting unit and is especially developed to be built into small and medium size vans; e.g. MB Vito, VW Transporter, Renault Trafic and Toyota Hiace. The CityJet is suitable for unblocking and cleaning drains and sewers up to 450 mm (18").

The 135° pivoting high pressure hose reel ensures an optimal and ergonomic ease of operation. The hose reel is supplied with a new hose guidance system and swings out at 135° direction. The control box always moves with the hose reel at perfect working height.

The CityJet can carry more water without compromising on space, due to the new design of 2 separate Rioned Compact System® water tanks, making the handling of the vehicle much smoother.

The noise level of the CityJet is half the level of similar machines on the market using a new exhaust and water cooling system and application of insulation materials.

The CityJet is developed to minimise pressure loss during operation. The construction method and use of different materials gives a stable and lighter machine.

The design, noise level, ease of operation, high quality components and ample space when built into a van, are the special characteristics of the machine.

The CityJet is available in various pressure and flow capacities, with extra options; e.g. Riomote® radio remote control, Riopulse® pulsator system, 4 Rioned Compact System water tanks (1.200 ltr/266 gals), quick filling and suction ventury systems.

Technical details

Water tank	2 x 300 ltrs/66 gals – Rioned Compact System®
Drive	Kubota water cooled diesel engine
Pump	Rioned / Speck high pressure pump P41 or P45 with water filter and pressure regulator
Capacity	200 bar / 50 lpm – 150 bar / 60 lpm – 200 bar / 65 lpm – 160 bar / 75 lpm 3000 psi / 11 gpm – 2250 psi / 13 gpm – 3000 psi / 14 gpm – 2400 psi / 17 gpm
Outfit	135° pivoting patented high pressure hose reel with hydraulic drive and 80 m high pressure hose NW 13 and collapsible hose guidance, fixed supply hose reel with 50 m supply hose NW 19. Control box with ignition key and control lights. 2 jet nozzles – open and blind. 1 jetting gun with 850 mm lance and flat spray nozzle.
Weight	As from 525 kgs
Dimensions	1285 x 1240 x 1200 mm
